LOVE'S DISCOVERY.

Ah Love! and have I found thee out at last,
Among the wild flowers on thy grassy bed,
'Neath blushing roses taking thy repast—
This dormant, raising up thy crested head!
And is it true thou art no bright winged child
That thou dost only gaze with eyes of fire:
And watch thy nursling passions deep and wild;
Which thou alone in human hearts inspire?

Ha, Serpent! art thou coiling round m feet,
Pro gressing up—now twining round my breast,
Instilling with thy lancet tongue, so sweet,
The poison'd honey to supply thy nest;
(Which thou hast made the *centre* of my heart.)
With food to cherish *thee*, to give *me* pain,
And hope and fear that smiles and tears impart—
Aye, have I found and sought thee *not* in vain!

Yes—thou art subtle Love, unseen, yet felt
To enter in thy hidden, deep recess;
Whose lightning glances, flinty bosoms melt,
Whose venom'd honey hath the power to bless;
Who coils so closely round the human heart,
A thousand "new sensations" spring to light
From the deep bosom, whence thou dost impart
To hope, existence, and to all delight.

Foreign Miscellany.

A singular affair lately took place in one of the country towns of Ireland. A marriage party assembled for the consummation of the nuptial ties:—all were in readiness—the bride with anxious eyes sought her love—he was not there. His brother, who was among the company, stepped forth to console her; and after a little whispering, it appears she consented to become *his* wife. The company were astonished—and the pair hurried to a clergyman, who performed the ceremony on the strength of the certificate of the absent bridegroom. All was progressing pleasant and fair—the merry dance and jovial song already had begun,—when, in breathless haste, the real lover arrives. All is made known to him: he raves and swears—and with brotherly affection, knocks his brother down—a general fight takes place: the officious brother gives up his bride, when they all retire peaceably to their home—The bride, now contented with her first love—and the hasty brother congratulating himself on his narrow escape from an enraged brother, broken limbs, and too pliant bride.

Hard Labor conducive to Health and Long Life.—A young man at the age of 18 years, in 1724, was condemned to the gallies, in France, on account of a high crime, for the long period of one hundred years, which was probably intended by the judge to confine him for life. Remarkable as it may appear, in 1824, the man being in perfect health, after an unremitting series of hardships of one entire century, was discharged, being exactly 118 years old. On visiting Lyons, he laid claim to an estate which belonged to his family. M. Bertholm, the possessor, who considered his title undoubted, by the advice of his own lawyer, paid the old heir 4,500*l.* to settle the business, and free his property from embarrassment.—*Scientific Tracts.*

Women Fattened at Tunis for Marriage.—A girl after she is betrothed, is cooped up in a small room, shackles of gold and silver are placed upon her ancles and wrists, as a piece of dress. If she is to be married to a man who has discharged, dispatched, or lost a former wife, the shackles which the former wife wore are put on the new bride's limbs, and she is fed till they are filled up to a proper thickness. The food used for this custom, worthy of the barbarians, is called *drough*, which is of an extraordinary fattening quality, and also famous for rendering the milk of the nurse rich and abundant. With this seed, and their dational dish, *euscasoo*, the bride is literally crammed, and many actually die under the spoon.—*Macgill.*

Murderous Resolves.—The following dialogue, which might have taken place in Ireland between two parties from the respective places alluded to, would, naturally enough, give to a foreigner a pretty good idea of the sanguinary disposition of the Milessians:—"Well, Pat, where are you off to?"—"I'm going to *Killmany*, my boy, what are you going to do?"—"Blood and 'ouns! I'm going to *Killmore*.

Correggio's Death.—Of the close of his days, it is said the canons of one of the churches which he was employed to embellish, were so displeased with the work, that to insult him they paid the price in copper; that he had this unworthy load to carry eight miles in a burning sun; the length of the way, the weight of the load, and depression of spirits, brought on a fever which carried him in three days to the grave.

Quid pro quo.—St Paul's was destroyed by fire.—Its re-building, under Wren, cost upwards of seven hundred thousand pounds. And how was this sum raised? Nearly the whole of it by a tax on coals. Thus a fire *destroyed* it, and fires (from a kitchen range to an attic grate) contributed to its *restoration.*

THE BOSTON MORNING POST.

THURSDAY, NOVEMBER 20, 1834.

The Enquirer and the Abolitionists.—The Richmond Enquirer begins to be a little alarmed at the movements of the fanatics at the North. It repeats its old threats of the wonders it will perform in the way of fighting, secession, &c., in case the fanatics interfere "in an improper manner."—*U. S. Telegraph.*

"The abolitionists at the North," or "the fanatics," as the Telegraph calls them, are the supporters of Mr Calhoun and Mr McDuffie—the Federalists, alias Whigs—the partizans of the Telegraph, and go hand in hand with the Nullifiers of the South. Previous to the late election in this State, the following notice appeared in the Federal papers of Boston :—

"☞The Colored Voters of Boston, in favor of supporting Mr Davis for Governor, Mr Armstrong for Lieut. Governor, and Mr Lawrence for Representative to Congress, are requested to meet at the School Room in Belknap street, This Evening, (Friday) November 7, at 7 o'clock. THOMAS DALTON.
JOHN T. HILTON."

These colored gentlemen were urged by the Abolitionists here to support the entire Federal Ticket, as embracing the men devoted to their interests, upon which was the name of the Hon. HENRY LEE, the gentleman nominated by the Nullifiers for the office of Vice President, and Senator elect from this county to the State Legislature. Thus it will be seen that the Telegraph's "fanatics at the North" are its co-laborers—there is a perfect union and concert of action between them and the Nullifiers at the South. Let the Union men look to this.

The whole number of colored voters here voted for the Federal Ticket.

"*The Returns,*" says a Swig editor, "come in like a dropping fire towards the close of a battle which has gone altogether one way, serving *to fill up the cry* without changing in the slightest degree the glorious result." "Fill up the cry"—beautiful and significant expression ! The same editor continues—"the Whigs of Massachusetts, *like their fathers* before them, have triumphed, and triumphed gloriously." How many of the present Whigs' fathers in the Revolutionary contest advocated British oppression, and how many during the second war for American Independence were found secretly hostile or openly arrayed against the government and the country? How long is it since a leading *whig* representative from Boston was found aboard a British ship of war in our own waters, while England with her war was aiding Massachusetts whigs in their patriotic efforts to "rescue" the "constitution" and the country? Perhaps the veteran editor of the Centinel may look in his note book, and find this in the number of his political reminisences.

The Great Tristam Burgess.—A correspondent of one of our city papers has seen the representative of the *great* State of Rhode Island—"the gentleman and statesman." Patriot swigs ! you may well be alarmed. The "most finished an dimpassioned orator of the age," as it is written in a leading swig print, is laboring under "the effects of an intermitting fever." The swig correspondent speaks of him in the following feeling language :—"The great statesman was muffled in flannels, drinks two gallons of gruel a day, sits an hour and a half in a tub of hot water, with tallow on his nose."

There will be a *Swiggery* at the Town Hall in Charlestown to-morrow evening. The object of this glorification is somewhat mysterious—it cannot be *for a glorious victory*, for the result of the late election in that town shows that the Democratic party have fought nobly and obtained an increased vote. In 1832 the Swigs had a majority of nearly 300 votes, and then but 800 votes were polled ; now, when 1100 votes are thrown, their majority is reduced to 81 on the Governor, and their Representative ticket goes in by *one* majority.

"*The Odds and Ends of Society.*"—The Democracy of the country have been honoured with many names—"the common people," "swinish multitude," "people of yesterday," "vulgar herd," "scum of the pot," and many other beautiful appellations known only to the *Swig dictionary.* The polished editor of the Gazette has found even another for them, viz. ; "*the odds and ends of society.*" Pray Mr Gazette how long is it since you have

"Dined from off the plate you lately washed ?"

☞The Swigs have nominated Gen. Lyman for a re-election as Mayor, and as candidates for Aldermen, Messrs Jabez Ellis, Thomas Wetmore, Charles Leighton, Josiah Dunham, Nathan Gurney, Samuel Greele, John B. McCleary, and Joseph H. Hayward. Aldermen Elliot and Fales declined being candidates for re-election.

☞Mr Lytle has been re-elected to Congress from Hamilton County, Ohio. He is a sound democrat, and recently resigned his seat, on account of the choice of a Bank man to supply his place at the expiration of his term. We shall now see whether the Bankite representative elect will be as honorable as Mr L.

The Treasury of the U. States appears to be in a most flourishing condition : the Globe gives a gratifying account of the prosperous state of the national finances; that paper says—We understand that the receipts into the Treasury during the month of October, from duties and lands, have exceeded one million seven hundred thousand dollars, which, if an average for the other months in the year, would be more than nineteen millions in 1834 ; that is a million over the estimates, although MrWebster,the great political Bank financier,predicted there would be a falling off, in the last half of this year, of 50 per cent. from the estimates

Ungallant.—The Editor of the Exeter News Letter says if Mrs Fanny Kemble Butler's forthcoming work is as dull and prosy as some of her poetry, published in the New York papers, he shall pity the wight who, for his sins, is obliged to read it.

SCRAPS FROM HISTORY AND LITERATURE.

A tyrant's suspicion.—The elder Dionysius was so suspicious and fearful of all men that he would not allow scissors to be used about his head, but his hair was kept in form with a burning coal. No person, not his brother, nor his son, was allowed to come into his presence, without first stripping himself before the guard, for assurance against secreted weapons. His brother Leptines, for taking a spear from an attending guardsman, to point out the situation of places in a country which was the subject of conversation, incurred his heavy displeasure, and the guardman was put to death for parting with his spear. Marsyes, whom he had raised to a high military command, relating that he had dreamed of having killed Dionysius, was executed for the evil disposition so indicated.

The Great Napoleon and his Imperial Guard.—The Emperor of France of whom, in his own expressive language to his son, "the universe for ages will discourse," after his first abdication, resigned himself entirely to his fate, whether for good or evil, and prepared to depart for Elba, his place of retreat. But first, he had the painful task of bidding farewell to the body in the universe most attached to him, and to which he was probably most attached—his celebrated Imperial Guard. Such of them as could be collected were drawn out before him in review. Some natural tears dropped from his eyes, and his features had the marks of strong emotion, while reviewing for the last time the companions of so many victories. He advanced to them on horseback, dismounted, and took his solemn leave. "All Europe, he said, had armed against him ; France herself had deserted him and chosen another dynasty." He might, he said, have maintained with his soldiers a civil war for years, but it would have rendered France unhappy. "Be faithful, he continued, to the new sovereign whom France has chosen. Do not lament my fate ; I will always be happy while I know you are so. I could have died—nothing was easier—but I will always follow the road of honour—I will record with my pen the deeds we have done together." I cannot embrace you all, but I embrace your General, (he pressed the general to his bosom.)—"Bring hither the eagle," (he embraced the standard, and concluded,) "Beloved eagle, may the kisses I bestow on you long resound in the hearts of the brave ! Adieu, my children—Adieu, my brave companions—surround me once more—Adieu." Drowned in grief, the veteran soldiers heard the farewell of their dethroned leader. Sighs and murmurs broke from their ranks. They resigned themselves to the loss of their beloved general, and like him yielded to NECESSITY.

If some are refined like gold in the furnace of affliction, there are many more that like chaff, are consumed in it. Sorrow, when it is excessive talks away fervour from piety, vigour from action, health from the body, light from reason, and repose from the soul.

The *truly* honest man in judging of *right* and *wrong*, disclaims to consult any authority but conscience ; the *fashionable* honest man humbly bows to the decesion of public opinion ; hence the wide difference between them.

Harty was executed at Troy, N. Y. on Friday last for the murder of his wife. The number of spectators says the Budget, was not less than 15 or 20,000. He confessed his guilt—acknowledged the justice of his sentence, and resigned himself calmly to his fate. He was a professor of the Catholic religion, and sought those consolations which it is calculated to impart in the hour of trial.

Abner Kneeland vs *the Commonwealth.*—The Jury to whom this case was committed yesterday at 11 o'clock, A. M. after being out about seven hours came into Court, declared their inability to agree upon a verdict, and were discharged. The case is continued to the March term.

Incendiaries are at work in Nashville (Tenn.)—Two stables have recently been burned by them in that place.

☞The Concordia, at New York from St Ubes, October 15, states that it was reported at Lisbon on the 13th that Donna Maria was quite sick.

The Hon. Mr Preston, Senator from South Carolina, has been visited by a paralysis, and serious apprehensions are entertained for his safety.

Eight cases of Cholera have occurred on board the steamer Champion, at New Orleans, from the mouth of the Ohio River.

Mr Editor.—As it is the custom to notice such of the public lectures which are now going on, as are in any way remarkable, I cannot refrain from expressing, in a few words, the gratification I received on Monday evening, from Mr *Adams'* lecture on Magnetism. It was the plain discourse of an unlettered but thoughtful man, on the subject of his manual labor—his own philosophy of his art and practical experience. As such, it was very interesting, and perhaps it is not too much to say, that the lecture was more intelligible and useful to practical men, than the more finished performances of those who only collect and new clothe the opinions and experience of others. But we look upon it with special favor, as an example for other operatives. A little reflection and study on the principles of their several trades, will enable them not only to understand them better themselves, but to inform others in an agreeable manner, and at the same time command their respect and patronage. I cannot but commend the example to our young, intelligent mechanics generally, and trust that the gentlemen who manage these lectures will always encourage such as are inclined to come forward and distinguish themselves in so praiseworthy a manner.
A Subscriber to the FRANKLIN LECTURES.

Providence, Nov. 16.—[Correspondence of the Transcript.] This quiet city was, a few days since, cast into a state of unusual excitement, by reason of an assault, *said* to have been made by a young man on a little girl of the age of ten years. The party accused is said to be very respectable ; and, the consequence was, that the mother of the child found it difficult to prevail upon the constables and sheriffs to serve a *capias* on the offender. Indignant at this delay of justice, the mother, with a soul swelling with all the just indignation of a parent, armed herself with a brace of pistols, and heroically marching to the quarters of the culprit, demanded his surrender on pain of a mother's vengeance. The young man quailed before the fury of the storm that threatened him, and submitted to a quiet capture.—He was the next day brought before a board of Justices, and after a full examination of the case, was required to enter into a heavy recognizance for his appearance before the Supreme Court of the State, at its regular term next March. I find that there is a variety of opinion with reference to the affair, but few persons believe the young man to have been guilty.

TRIAL OF THE SPANISH PIRATES.

[U. S. Circuit Court, Wednesday, Nov. 19, 1834.]

WITNESSES FOR THE DEFENCE.

Santiago Elonzo—I have been an officer 3 years—have made voyages to Africa from Cadiz and Havana—have sailed in a clipper—clippers sail faster than other vessels, for they are built for nothing else but sailing, and not to carry cargoes—I can get *eleven and a half* knots out of a clipper with the the same wind that I can only get *six* with, in my present brig.

Judge Story—Suppose a vessel sailed from Salem for Rio Janeiro on the 29th of August, and the schooner Pinda sailed from Havana for Africa on the 20th, would they be likely to meet, or not ?

Witness—I think it hardly possible for them to meet, as the schooner must get ahead of the brig ; for I once knew a clipper to reach the Cape de Verds in 30 days. A brig from Salem, for Rio Janeiro, would cross the Equator from 21 to 28 West, and the schooner would be in 12, at the same time. [The witness has been in the slave trade ; and was a custom house officer in Havana four years.] I was acquainted with Captain Gibert, and he bears a very good character in the best mercantile houses in Havana. When I was clerk in the custom house, in Havana, in 1827, I know that Capt. Gibert was a member of a mercantile house—he used to enter goods consigned to the house—the merchandise in their store was worth $10,000—I am not much acquainted with Bernardo de Soto, but have always heard merchants, concerned in the African trade, speak highly of him—he owned a schooner—afterwards purchased the Pinda, and went out in her—the Pinda once arrived at Havana with 420 slaves.—In reply to a question, by Mr Dunlap, the witness says it was in the slave trade in which Bernardo de Soto gave satisfaction to the merchants.

Joseph Smith—I have been 25 years in the United States Navy, besides being in the merchant service before—was 5 years a midshipman—14 years a lieutenant, and a master commandant ever since. [Having ascertained the rate of sailing of the Mexican, Captain Smith is of opinion, that the Pinda would beat her 25 per cent.] It is not at all impossible, but only improbable, that the Mexican, sailing from Salem on the 29th, and the Pinda from Havana on the 20th, would meet, provided that both vessels improved their time to the best advantage. [Mr Peyton was here called by Mr Child, to say whether a vessel could go to Cape Mount, n Africa, in 14 days, from lat. 33, long. 34.30, where the Mexican was robbed ;—Mr Peyton was of opinion that she could not go in less than 28 or 30 days. Perez testified that the Pinda made Cape Mount in 14 days after the robbery.] In reply to Mr Dunlap—If the brig and schooner would meet at all, it would be where the brig was robbed.

Capt Beethold—A vessel bound to Rio from Salem, and one from Havana to Cape Mount, would probably meet where the brig and schooner met—the distance from Havana being enough greater to make up for the greater speed of the schooner.

In reply to Mr Dunlap—If the schooner made all possible speed, she might get a little further to the eastward [than lon. 34]—but if she did not take every advantage in her power, she might not get quite so far east ; but my general opinion is, that they would meet about there, as that is the general thoroughfare.

Capt Faucon—Been to sea 12 years—is master of vessel—never sailed in a sharp vessel—have understood that the speed of such vessels is about 30 per cent. faster than other vessels. Supposing that the brig and schooner, sailing according to dates stated, took advantage of every thing, it would be *improbable*, but not *impossible* for them to meet.

Samuel Austin Turner—Have been six years in the U. S. Navy—is acquainted with the brig Mexican—the schooner would sail 9 knots, with the same winds that would carry the Mexican only 6—but in a *fresh* breeze, in which the Mexican would go *eight* knots, the schooner would exceed her only about *one* knot. From some calculations which I have made, the Mexican and Pinda, under given data, would not approach each other nearer than one hundred miles—that is, taking it for granted, that they both avail themselves of every advantage.

William S. Bruce—I have lived in Havana, and I was somewhat acquainted with Bernardo de Soto—he was universally spoken well of—In the fall of 1833, he came into Havana, as captain of the Spanish brig Leon—he brought in with him the crew and passengers of the American ship *Minerva*, lost, by being burnt at sea, on her voyage from New Orleans. His conduct in relation to that event was highly spoken of ; from 30 to 40 passengers, besides the crew, were saved by him. The *merchants* AND, or OR *masters* of vessels, in New Orleans, presented de Soto with a piece of plate for that act. * * * It is no *disparagement* to a man's *character* in Havana to be engaged in the *slave trade.*

Charles Sumner—I have seen Ridgely before [Ridgely was cook of the Mexican, and one of the witnesses who identified *Ruiz* and *Ferrer*] when the prisoners were brought into Court, to receive copies of the indictment, I saw Ridgely near the Crier's desk, surrounded by a number of people—he was gesticulating violently—and pointed to one of the mutineers that day in Court also—the pirates in the meantime were withdrawn—the mutineers [of the Merrimac] were seated in front of the bar—he pointed towards the marshal's desk—he was much excited—the pirates were in the room when he first pointed—I watched his fingers at the time, for thinking him to be one of the Mexican's crew, I felt considerable interest in what he was doing.

James Benjamin—I saw Ridgely at the time referred to by Mr Sumner—a number of people were collected round him—he was pointing to one of the mutineers—It was some time before I could get near enough to hear what he was saying—when I got up to him I saw him point to one of the mutineers, and heard him say—"I see you ; but you don't know me now, d——n you, but you will know me."

[Mr Childs now read from a Portsmouth, Eng. paper, a notice of the arrival of the British man-of-war brig *Curlew ;* Capt. Butman's statement of the piracy, published in the Salem Gazette, and the Mexican's Log Book.]

Stephen Badlam—I have conversed with *Perez*, the U. States evidence—on or about the 1st of October, I was requested by the District Attorney [Mr Dunlap] to accompany him to the jail to see Perez—we went into the "doctor's room," as it is called, and had Perez brought in. I told him that the gentleman with me was the District Attorney, and belonged to the court, and wished to converse with him—Perez then said—"What I have confessed and said about the robbery was a lie." He also said that they had given him a good deal of wine, and told him, that if he became a witness, he would not be held as a prisoner on the principal charge. He was apparently much out of humor, and said—"I'll not be a witness any longer ; I don't wish to be a witness ; I'll take my chance with the others." He said the English had deceived him, by telling him that he would not be kept a prisoner, but he was now as much of a prisoner as the others were. I stated to Mr Dunlap what Perez had said to me. I understood him to refer to the time when he took his depositions—when he stated that they gave him a good deal of wine, I supposed that he meant that the English gave him the wine at Fernando Po—I really cannot say positively—I am not certain that he named Fernando Po. This was after I had stated to him who Mr Dunlap was, and that he belonged to the court. I never doubted he referred to the Fernando Po depositions. The reply of the District Attorney, when I told him, in general terms, what Perez had said, was—"Very well; he can do as he pleases. If he does not choose to be a witness we can do without him." Perez then cooled down immediately, and replied—"When I go before the court, I'll tell the truth." He was immediately taken back to the jail.

Mr Dunlap here rose, at the request of Mr. Child, to state what had passed between himself and some of the prisoners, respecting their becoming witnesses. Mr D. remarked that he had not the slightest objection, but,on the contrary, considered it to be his duty to the prisoners to state the whole transaction ; and continued, that considering the state of Perez's mind, he did not feel it to be safe to leave the cause there, but sent for the boy Costa, and stated to him, that whatever he might disclose to him in confidence, should not be used against him. Costa replied that he was innocent, and that there was no robbery. The same proposition was then made to Guzman, and the cook, who also declared their innocence, and that there was no robbery. The same proposition was made to the mate, but he returned an evasive answer, and the negotiation with him was abruptly terminated : he said he 'was willing to tell the truth, because he was innocent.'

Mr. Child then rose and said, "I perceive that an honorable spirit has presided over the conduct of the District Attorney in relation to this transaction."

Col E. G. Prescott—I was in court when the prisoners received copies of their indictment—I was standing near the crier's desk—Ridgely (cook) pushed me roughly aside—I asked him what he was doing inside the bar—he replied, "I was cook of Capt Peabody's vessel, when she was robbed, and I want to see the d—d rascals." * * He shook his fist at them, and said, "d—n you, it is your turn, now." He pointed out distinctly two of the prisoners who are here now, and another that I do not see here. The mutineers were in court at the same time.

Mr Trescott (the crier)—I went down in front of my desk with Ridgely—he pointed to the prisoners,and said "that's one,and that's one." He was a good deal intoxicated, and I told Mr Dunlap he had better be taken care of.

Henry Homer—I saw Ridgely—he was about two thirds drunk—and they could not still him—Mr Child was there, and appeared to be anxious to hear him—he was pointing to the prisoners. Some one said to Mr Child, "he won't do you any good—he is pointing to the prisoners."—*Adj.*

REVIEW OF THE BOSTON MARKET

FOR THE WEEK ENDING TUESDAY, NOVEMBER 18.

BEANS.—Further sales have been made for shipping at $1.75 pr bushel.

New-Bedford, Nov. 18, 10 *a. m.*—A fire broke out here this morning, about half past 5 o'clock, in the cellar of a two-story building on Water-st. among some oil-casks, which almost instantly communicated to the stores above, occupied by James Wady as a boot and shoe store, and a Mr Carver as a small grocery. All Mr Wady's books, papers and stock, to the value of abou $10,000, were consumed ($1100 insurance); a dwelling-house owned and occupied by Thos Howland, insured ; a store unoccupied, belonging to Caleb Thaxter, no insurance ; a bake-house formerly occupied by B. D. Almy , the two-story dwelling-house of Capt William Blackmer, insured, and a two-story building belonging to the same, also insured; a three-story building occupied by Jas Carver, Wm Card and others, and owned by Humphrey Davis, jr, ; a small building occupied by J. G. Easton, in rear of the above named bakehouse ; a one-story dwelling-house, occupied by Wm Hathaway, and two other buildings, were entirely consumed, together with about $5000 worth of oil-casks.

The wind blew a hurricance from the East, and had there not been a heavy fall of rain during the night, the principal part of the town would have been in ashes.

The confusion is such that no accurate estimate of the loss can be made. It was no doubt the work of an incendiary.—*Providence Jour.*

Railroad Accident.—A serious accident, we understand, occurred on Saturday last, on the S. C. Railroad, about 30 miles from this city, occasioned by the falling of a box from one of the freight cars, which caused the engine to go off the road, shattering the principal part of the freight cars, and breaking up the road. We understand about seven persons were seriously injured. Mr Allison, the engineer, we are sorry to learn, is so much injured, that his life is despaired of—one of the others had his thigh broken. The passengers coming up had to shift cars, and arrived in the city about 10 o'clock on Saturday night —*Augusta paper.*

The thief who adroitly obtained the possession of the valise, containing a large sum of money of a gentleman at the Western Hotel, of this city, sometime ago, has been apprehended and indentified. All the money, it is expected will be recovered.—*N. Y. Star.*

The *Bank of Washington* gives notice that it has resumed specie payments, which were suspended in April last.

It is in contemplation to build a Merchants' Exchange at Pittsburg, Penn.

William Southgate, Esq, Surveyor of the Customs at Liverpool, has been murdered by a man named Norman Welch, who had been employed in the Customs upwards of nineteen years.

A. WATKINS, *THOMSONIAN BOTANIC PHYSICIAN—Infirmary, Harvard street, (opposite 439 Washington street,) Boston*—Has been acquainted with and possessed of a right to use Dr. Samuel Thomson's Patent Vegetable Medicine, for the last 21 years, and administered them in Europe, and South and North America, (including the West India Islands,) and with as much success as any other can, (with truth,) boast of. In the nine months' practice he has had at the Harvard street Infirmary, *he has not had the misfortune to lose* ONE *patient*, although many of them had been for years in the hands of the members of the Medical Faculty, and some of them abandoned to their (supposed) hopeless tate. As he is so well known in Boston, it is unnecessary to enter very largely into a detail of success. The following are a few o his patients:—

Stephen Gore, (inquire at Thomas Holland's Beach street, Boston,) totally blind for about 5 months, one eye, nearly destroyed, general debility, legs swollen and lame—appeared completely charged with poisons. General health restored; eye sight good—could see to read (without glasses) in 5 courses, &c. better than he could for seven years previous.

Mr. Parker, now assistant at the Infirmary, rheumatism and dyspepsia, cured in 3 courses.

Francis Kemlo, 153 Court street, Boston, severe indigestion and spasms, cured in four courses, &c.

Thomas Pierson, of Roxbury, and keeps a stall in the new Market, Boston,) erysipelas in the face and one eye; leg very much swollen and ulcerated from the knee to the ancle for the last 25 years—attended by many physicians; nearly cured in 5 weeks

Miss Charlotte Pierson, do. white swelling, with loss of appetite, &c. under medical treatment 5 months, and unable to walk—cured in 3 weeks.

Jesse Brown, baker, of Roxbury, rheumatic and retrocedent gout; stomach, knees, ancles and toes greatly affected; has been confined to bed nine weeks—cured in 4 courses, &c.

Miss A. Brown, his daughter, scrofula or king's evil, cured with 4 courses, &c.

J. D. Smith, of Lexington, dyspepsia, ofseveral years continuance—cured in 3 courses. &c.

Samuel Hawes, of Weymouth, rheumatism in the back, strictures in the urinary passage, general emaciation, &c.—cured in 6 courses, &c.

S. Smith, calico printer, of Lynn, pain in the stomach and back, and strictures across the breast, &c.—cured in 2 courses.

—— Toll, of Shepard street, Lynn, fits and severe cholic, from indigestion—cured in 2 days!

Benj. Morgan, of Salem, cancerous or scorbutic humors, head ulcerated, debility and loss of flesh; piles severe, and unable to dress or undress himself for a considerable time—cured with 5 courses, &c.

Joseph Kerrier, of Salem, rheumatism in his shoulders and arms—cured in 2 courses, &c.

Sarah Town, of Andover, indigestion, severe pains throughout the system, and piles—cured with 3 courses, &c.

Mrs Lucinda Kerr, Sea street, Boston, salt rheum; top of the head one entire scab—cured in 4 courses, &c.

A W. cannot be at the expense to enumerate more cases, at present. He has not named cases of fevers, they are almost too ephemeral in the hands of a physician acquainted with his duty—the *ignoramus* or continued fever, is unknown in the practice of such. Delicacy will not not permit the naming of several diseases, which he has treated with universal success. In almost all the cases of diseases which have been treated by him, he has been under the necessity to expel not only the disease, but the *poisons* which produced and continued them—and all with INNOCENT and HARMLESS SIMPLES.

This practice induces him to believe he is not too bold in saying, the Thomsonian treatment removes both disease and the poisons of the Medical Faculty from the human system, when resorted to in seasonable time.

For Medicine, Family Rights to use the same, Robinson's ectures, &c. at the usual prices, apply as above, of

J. F. FOSTER'S PATENT IMPROVED TRUSSES.—MR. FOSTER invites those who desire an effectual remedy for the dangerous and distressing disease of RUPTURE, to call at his office, No. 388 Washington street, in rooms over the Roxbury Dye House office, (at the sign of the Eagle and Truss) where he is in constant attendance, to adapt his Trusses to the particular case of the patient, as Successor to Mr Beath.

Separate rooms will be provided, so that three or four individuals calling at the same time will not be interrupted.

It is the oldest establishment of the kind in the State—Mr B. having followed the business for more than thirty years—during half of which time Mr Foster has been making them on Mr Beath's plan, and others of approved kinds. Although not followed it steadily and exclusively, he has made them for him felf 15 years past, and for individuals who he is at liberty to refer to. Mr F. having been severely afflicted with the disease himself, since the age of 12 years, considers himself as possessing a thorough knowledge of the business. All Trusses made and sold by him, will be warranted to keep the protruded parts within the cavity of the abdomen.

Among the variety of Trusses made by Mr Foster, are *Patent Elastic Spring Trusses*, with *Spring Pads*;—Trusses without steel springs; these give relief in all cases of rupture, and in a large portion produce a perfect cure. They can be worn day and night. Improved *Hinge and Pivot Trusses, Umbilical Spring Trusses*, and Trusses with *Ball and Socket joints.*—Trusses for *Polapsus Ani*, by wearing which, persons troubled in that way, can ride on horseback with perfect ease and safety. Mr F. also makes Trusses for Prolapsus Uteri, which have answhred in cases where *pessaries* have failed. Suspensary Trusses, Knee Caps, and *Common Trusses* are kept always on hand, charged at the lowest prices. Machines for remedying deformities.

Mr F. will wait on individuals at their houses when preferred—he takes measure of infants at any age, and makes Trusses for both double and single ruptures, which may be worn without pain or inconvenience, and which in many cases will produce a perfect cure, in the space of six or twelve weeks, in such little children; he has had occasion to make a number of late, the *Fathers and Mothers of which he will refer to, as well as the Physicians by whom they were recommended to Mr Foster.*

Individuals purchasing Trusses of the subscriber, which fail in answering the desired purpose, are respectfully invited to call and exchange them for those that will, and for which there will be no extra charge.

Surgeon's Instruments, and Trusses repaired at the Manufactory.

_ Ladies wishing for either Trusses or Backboards, can be attended by Mrs BEATH, at her residence 585 Washington st

PATENT FOR THE U. STATES.—Mott's Patent Medicated and Champoo Baths, and Systematic Vegetable Medicine. These baths are well known to the medical faculty as being patronized by the most eminent Physicians of Europe and Asia, and are considered in the Oriental Empires as the greatest luxury they enjoy, being a preventive as well as a cure of contagious diseases—and they are now introduced in the United States in a new and perfect form, and with the greatest confidence of success. These Baths are medicated according to the disease—they are now open to the public, and will be administered to families or individuals, under the direction, or according to the prescription of their physician.

Dr. Mott will undertake the cure (or the relief) of all Chronic Diseases, Wounds, (however of long standing,) Ulcers, Abscesses, internal or external, Gout, Rheumatism, TicDoloroux, Cancers, Imposthumes, and other complaints incident to the human frame.

Dr. M. will personally superintend the various Baths, and attend to the prescriptions of the Medical Gentlemen in behalf to their patients.

Without boasting of the cures that have been performed, or pretending to any wonderful knowledge, he would merely say, he would be happy to render the Baths, and the system of Medicine itself, useful to the high Medical Talent of Boston, leaving it to an enlighteaed public to decide.

Those spacious premises have been fitted up with great expense, at the corner of Lynde and Cambridge streets, and other places have been purchased to be fitted up as auxiliary establishments. It may be proper to state, that no mercury or mineral preparations are used—no hot medicines, or cold water—but it is, in fact, a union of the simples of the Materia Medica with the Herbal Medica—therefore called Vegetable.

Teeth and Corns, he will undertake to extract scientifically; Bunions on the joints, compound or cancerous Toe Nails, and other diseases of the Feet, diseases of the Eyes, &c.

Male Patients only attended to by me. Mrs. Mott, the Females and Children. No out door cases can be attended to.

N. B. Agents may purchase Patent Rights for villages, towns, or cities, in any part of the United States, with a guarrntee exclusive—together with the Medicines and Book of Directions, by application to DR. MOTT, corner of Lynde and Cambridge streets. tf jan 21

IRON SAFES.—S. A. & W. G. PIERCE, Agents for selling Gaylor's Patent Double Fire Proof Wrought Iron Chests and Safes, 370 Washington-street, have now on hand a large assortment, comprising all the sizes and kinds which are calculated for the use of Banks, Insurance Offices, Town Records, Merchants, and others.

The above Chests are double throughout in all their parts, with double doors, each secured with Chubb's Patent Detector Locks, which *cannot be picked*; and the Chests are as completely Fire Proof as any vault or chest can be made. Proof of which can be seen by those who will take the trouble to call at the Agent's Store and examine a Double Chest which has passed through a very severe fire, and preserved a valuable lot of books and papers, belonging to John S. Abbott, Esq., whose name is attached to the following certificate:

"This is to certify, that one of the above described Double Safes, which I purchased of the Messrs. S. A. & W. G. Pierce was in my office in this town when the office was burned on the 2d day of November last—the building was of two stories, wooden, and large. The Safe, weighing 700 lbs. fell from the second story into the cellar, and was exposed to an intense heat for nearly three hours. It was for a long time literally *red hot*. It contained all the account books, notes, and court-papers, that were in my office; and no paper was in the least degree burnt or rendered illegible. JOHN S. ABBOTT.

Thomaston, January 8th, 1834."

The above Chest, and some of the papers which were in it at the time of the fire, are now at the Agents' store, corner of Essex and Washington streets, and any individual or corporation who are about purchasing Iron Safes for the protection of their books and papers, will find it for their advantage to call and examine them, and they will be perfectly satisfied that Gaylor's Double Safes are what they are represented to be—FIRE PROOF! and they will be still further satisfied that none other but the Double Safe would stand a severe fire.

Gaylor's Double Safes are a Patent article, and can only be legally purchased in this city of S. A. & W. G. PIERCE, who are his authorized Agents. tf—jan 31

INDIGESTION, JAUNDICE AND BILIOUS COMPLAINTS. ANDERSON'S VEGETABLE ELIXIR, *for Dyspepsia or Indigestion, Jaundice and Bilious Complaints; weakness of the Stomach and Bowels, and consequent loss of appetite; nervous complaints, headach, sour stomach, flatulence and habitual costiveness.*

This medicine is composed entirely of vegetable substances, is perfectly safe in its operation, and may be given to children or persons of the most delicate habit, without the least risk of inconvenience.

The uniform success which has attended the use of it where it has been extensively used, in Boston and various other parts of the United States, and in the West Indies, attested by disinterested and highly respectable persons, affords, next to a trial of the medicine itself, the best commentary upon its virtues, and the best recommendation which can be offered to those who are unacquainted with it.

Extract of a letter received from a gentleman in Boston, who had suffered severely from indigestion for three years. 'During this time, I suffered very much from mental depression, constant pain in the head and breast, and side, sharp shooting pains over almost the whole system—the food that I ate *seemed* to pass into my lungs and there remain, giving me great pain attended with a strong degree of heat. At times, I suffered so much from the pain of indigestion as to be confined to the bed for two or three days. During one of these most severe attacks, I was induced by the advice of a friend to try your Vegetable Medicine. In the course of a few weeks I found myself much better, and by the time I had taken two bottles, considered myself wholly free from the complaint. I continue, on the least feeling of any thing like indigestion or pressure on the stomach, to take about a table spoonful of it, which, in the course of a few hours, completely restores me. It has had with me a very wonderful effect, in strengthening the stomach and invigorating the whole system, and judging by my own case, I consider it in all diseases connected with the digestive organs, to be a very valuable medicine.

It has been found singularly efficacious in cases of the most obstinate headache.

It is put up in large bottles containing a pound and a half; and sold at *seventy-five cents* each, by Jonathan P. Hall, Jr., No. 1, Union street, John P. Whitwell, Milk street, John I. Brown, near Boylston Market, Erastus S. Holden, near the Western Avenue, Richard A. Newell, Summer street, Boston; Samuel Kidder & Co. Charlestown, E. G. Lemon, Roxbury.

POSITIVE, OR NO PAY.—*Mrs. Hills Cough Drops, or Vegetable Health Restorative.*—Prepared entirely from Vegetables.

More than forty years have now elapsed since the receipt was given me by my uncle, a celebrated Physician, at a time that I was troubled with a very bad cough and cold. After taking one dose, I found immediate relief, and a few doses cured me entirely; the effects were astonishing quick, and the numerous instances of the wonderful efficacy of these drops on different people, has induced me to put them up in Phials, with directions, under the impression it would be a public benefit. And as that is my sole aim—and to convince the public that is all, and as a sure guarantee against quackery and deception, I authorise my agents to return the money to all those that do not get relief by their returning the bottle and directions. The relief and absolute cure, particularly of these numerous and complicated disorders arising from neglected colds, is amply attested by the acknowledged approbation of those who are now restored to perfect health, as well as many in the decline of life who frankly acknowledge having received great relief from the use of them in the following diseases, viz:—Coughs, Colds, Asthma, Spitting of Blood, Hooping Cough, Difficulty of Breathing, Influenza, Quinsea, Phthisic, Croup, and all disorders arising from colds. Price 37½ cents per bottle.

PURE BEAR'S OIL may be had by the groce, dozen or single bottle, of A. BOYDEN, Hancock-st.

As in all cases, so especially in this, Venders, if they wish to secure the patronage of the public, should be extremely cautious not to sell an article for the Hair which tends to counteract rather than assist nature,

The virtues of *Bear's Oil* have been too long tested to need any eulogium; and at this time no one can doubt of its being the very best article for strengthening and promoting the growth of the Hair. An honest prejudice against the use of Bear's Oil has long existed, arising from two causes—the improper method of purifying it, and the imposition upon the public of a spurious article. That this prejudice may be wholly removed, this article now offered is warranted the pure Oil, rendered more pleasant by the addition of a little perfume—and the possibility of its injuring the Hair is entirely precluded by the manner in which it has been purified. To prevent fraud, the genuine is enclosed in two wrappers, the inside one being signed *Arnold Boyden*. aug 15

RODGERS' IMPERIAL STOCKS.

6 Joy's Building, up stairs.

[Opposite the Post Office, Boston.]

WILLIAM H. ROGERS, most respectfully invites the attention of Merchant Tailors and the public generally, to his new invented Imperial Stocks for the Neck, which for ease and elegance very far surpass every thing of the kind hitherto manufactured in this vicinity. They are cut scientifically; the materials and manner of making are quite different from those in common use, and they may be covered many times, and retain exactly the same shape as when first made. W. H. R. requests permission to enumerate the usual faults in the common Stocks, viz: 1st, the very inferior materials used; 2d, their sitting away from the chin and exposing the neck, when disagreeably close at the bottom; 3d, the edge at the top being uncomfortably tight, as to cause a distortion of the features by moving the head; 4th, that of their bulging out at the sides, by moving the head a little downwards, which has a most distasteful appearance. By W. H. Rogers' deservedly admired and extensively patronized invention, all these faults are completely obviated. Naval and military gentlemen will find them the most pleasing and durable. Made to order of any texture, by the dozen or single, at the lowest cash prices. Ladies' Riding Stocks beautifully made to order. tf—july 23
